

CARE & MAINTENANCE

inBuilt's range of products are manufactured from the highest quality materials and designed to provide years of trouble free service.

inBuilt products are made from Moisture Resistant Medium Density Fibreboard (MR MDF) and Particleboard substrates and as with any wood based panel cannot be made totally waterproof, of which care should be taken to wipe up spills immediately, ensuring the products are not exposed to high or continuous levels of moisture, steam and humidity.

General Cleaning

Step 1. Wipe down using a damp soft cloth containing warm soapy water, followed by drying using a soft or microfibre cloth so as not to leave any residue on the door or panel. If this is sufficient there is no need for any further action.

Step 2. For more stubborn stains, use a good quality streak free glass cleaner as per the manufacturers recommendation. You may also use Methylated Spirit on a soft cloth, using a circular cleaning motion being careful not to rub too hard.

Step 3. Repeat Step 1 - Wipe down using a damp soft cloth containing warm soapy water, followed by drying using a soft or microfibre cloth so as not to leave any residue on the product.

Always ensure that you refer to the recommendations provided by the cleaning product manufacturer before use.

Avoid contact with sharp implements.

NOTE DO NOT use any of the following on inBuilt products: Commercial Cleaning Products, Abrasive Cleaners, Scouring Pads or Abrasive Papers, Acids and Alkalis, Solvents, Thinners, Turpentine (Turps), Ammonia, Bleach, Acetone, Easy-Off BAM!, M.E.K. or any other cleaning agents containing organic solvents or the above mentioned products.
